

## **BAMBOOZLED** **Trek Guide for Clients & Experts in Medicine**

By Dr. Sherene Suchy

**Bamboozled** was developed as a resource for community nurses to empower their clients to take responsibility for their own well being after a challenging health diagnosis. Dr. Sherene Suchy had to go through all the difficulties described to create **Bamboozled**. A deeply personal account, Sherene reminds us we have unlimited potential to regenerate and heal. An advocate for lifestyle medicine and circle talk, Sherene shares stories with respect, highlighting the importance of relationship, and taking responsibility.

### **What Have Others Said?**

**Bamboozled** is honest, frank and insightful; its told by an “insider” who has many years of experience in dealing with the anomalies of medicos and the medical system. A useful backstory for anyone who is using the system, or is part of it.

*Paul Bedson, Senior Therapist / Facilitator, The Gawler Cancer Foundation, Australia*

I’m putting my hat on as the ‘social work’ rep to an interdisciplinary team that designed and co-taught what was referred to at the time as the ‘interpersonal skills courses’ offered to would be physicians, nurses, pharmacists and social workers. The people who need this book the most are the ones who are the hardest to reach but then I suspect that is the case with a lot of things in this world. I’d see this as having high and immediate appeal to patients who have just received a diagnosis. Above all though, I see it as being of interest to family and friends who are called in as the support team for a bamboozled-vulnerable patient and would-be client. Very elegant conceptualization for the chapters and from-the-heart writing of just the kind Judge Yazzie (he of the Navajo Nation) speaks in.

*Dr. Gale Burford, Emeritus Professor of Social Work, University of Vermont, Distinguished Visiting Scholar of Restorative Justice, Vermont Law School, Visiting Scholar for International Governance and Justice (CIGJ) School of Regulation and Global Governance (RegNet) Australia National University.*
